Patient Experience

Based on 3000+ surveys, 89% of our patients rate their overall St. Vincent Neighborhood Hospital experience at 5 out of 5 hearts!

- | | | |
|--|--|--|
|  Open 24/7, 365 |  Board-certified/eligible ER physicians and registered nurses |  Dedicated pediatric room |
|  Est. wait time, less than 15 minutes |  Accept private insurance, Medicare, Medicaid and self-pay |  Soothing, relaxing and comfortable interiors and furnishings |
|  Convenient neighborhood locations |  Free, convenient parking |  Family lounge with refreshments |
|  Industry leading nurse to patient ratio |  Innovative facility with state-of-the-art equipment |  Flat-screen TVs and free Wi-Fi |

St. Vincent Neighborhood Hospitals are designed with a focus on providing an exceptional patient experience in a calming, caring and healing environment.

The WHY

Why send employees to a St. Vincent Neighborhood Hospital?

Improved health outcomes due to:

- ✓ Little to no wait time
- ✓ Personalized, quality care
- ✓ Faster treatment

Our building design, streamlined-processes, state of the art equipment, staff expertise and training are all carefully designed to offer low wait times, less time spent in the hospital, and more quality time with a physician.

Hundreds of thousands of employees commute across the greater Indianapolis area each day and these neighborhood hospitals will keep those employees close by and get them **back to work sooner, happier and healthier.**

The WHY: Time Savings

Our neighborhood hospitals are **53 minutes faster** from door to discharge than the Indianapolis average.

Benefits of faster care:

- Lower need for admissions
- Less time admitted
- Less chance of infections
- Less time away from work

The WHY: Cost Savings

In several cases **St. Vincent Neighborhood Hospital** is 15-20% cheaper on the overall cost of healthcare because we treat issues faster, reducing complications, prolonged sickness, and hospital-borne infections.

Quicker treatment and a higher quality of care can result in less time your employees spend away from work being sick or taking care of their loved ones.

Fast Treatment

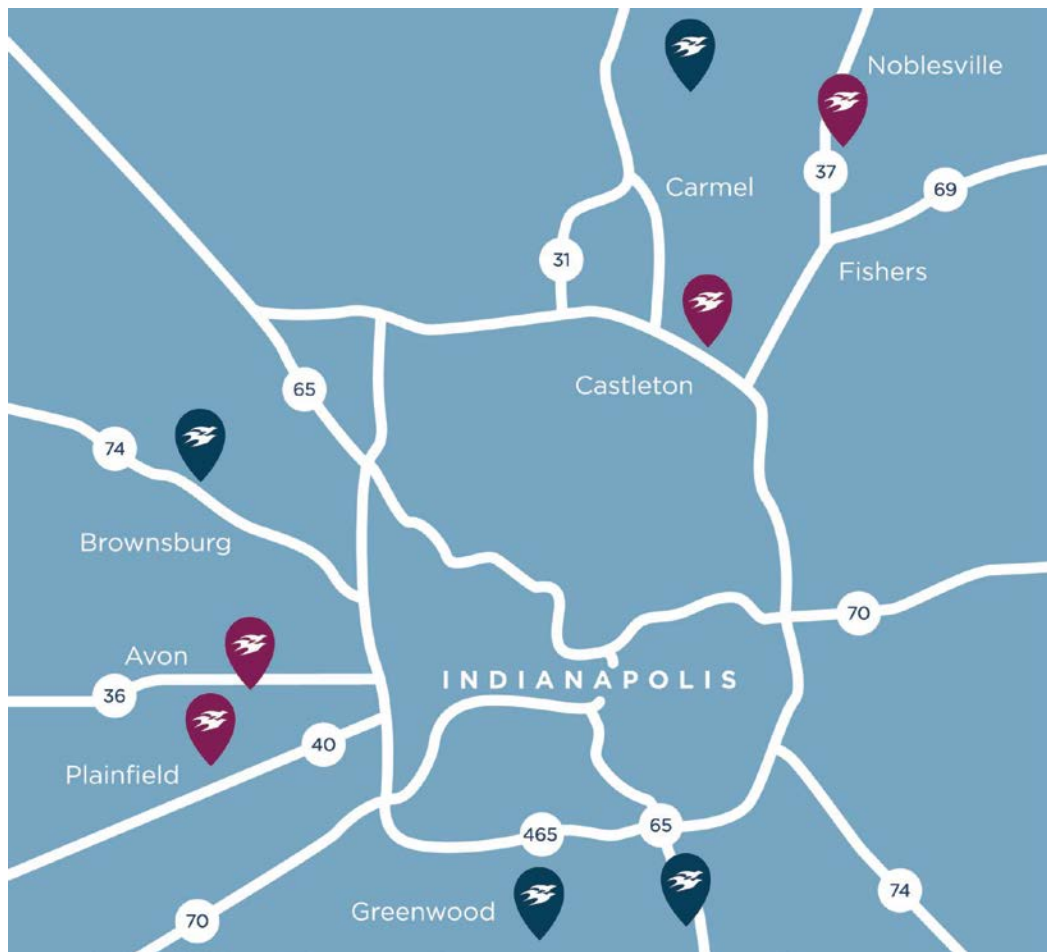

**Reduces Complications
& Prolonged Sickness**

Back to Work Sooner
